

$$\frac{\partial v}{\partial t} + v_k \frac{\partial v}{\partial x_k} - \nu \Delta v = -\nabla p$$

$$\frac{\partial v}{\partial t} + v_k \frac{\partial v}{\partial x_k} - \nu \Delta v = -\nabla p$$

$$\frac{\partial v}{\partial t} + v_k \frac{\partial v}{\partial x_k} - \nu \Delta v = -\nabla p$$

$$\frac{\partial v}{\partial t} + v_k \frac{\partial v}{\partial x_k} - \nu \Delta v = -\nabla p$$

Institute of Mathematics of the Academy of Sciences

Mathematical Institute of the Charles University

Nečas Center for Mathematical Modeling

organize an international workshop

$$\frac{\partial v}{\partial t} + v_k \frac{\partial v}{\partial x_k} - \nu \Delta v = -\nabla p$$

$$\frac{\partial v}{\partial t} + v_k \frac{\partial v}{\partial x_k} - \nu \Delta v = -\nabla p$$

$$\frac{\partial v}{\partial t} + v_k \frac{\partial v}{\partial x_k} - \nu \Delta v = -\nabla p$$

$$\frac{\partial v}{\partial t} + v_k \frac{\partial v}{\partial x_k} - \nu \Delta v = -\nabla p$$

Nonlinear PDE's

to commemorate the work of **Jindřich Nečas** (14. 12. 1929 – 5. 12. 2002),

an outstanding Czech mathematician who contributed to many fields of mathematical analysis.

Date

December 13–15, 2009

Location

Institute of Mathematics of the Academy of Sciences, Žitná 25, Praha

Faculty of Mathematics and Physics, Charles University, Malostranské nám. 25, Praha (Dec 14 afternoon)

Invited speakers

Ph. Ciarlet (*Hong Kong*), P. Drábek (*Plzeň*), M. Feistauer (*Praha*), J. Franců (*Brno*), J. Frehse (*Bonn*), A. Friedman (*Columbus*), G. P. Galdi (*Pittsburgh*), M. Giaquinta (*Pisa*), J. Haslinger (*Praha*), W. Jäger (*Heidelberg*), O. John (*Praha*), J. Kačur (*Bratislava*), J. Málek (*Praha*), J. Naumann (*Berlin*), A. Novotný (*Toulon*), P. Quittner (*Bratislava*), T. Roubíček (*Praha*), M. Růžička (*Freiburg*), A. Sequeira (*Lisbon*), D. Ševčovič (*Bratislava*), C. Simader (*Bayreuth*), V. Souček (*Praha*), J. Stará (*Praha*), E. Viszús (*Bratislava*), W. Wendland (*Stuttgart*)

Organizers

Šárka Nečasová and Milan Pokorný
